Water Safety at Home

Everything you need to know to keep your kids safe around water at home. Whether you're bathing your baby in the sink or splashing around with your toddler in the bathtub, water is great fun for kids. But it's also a place where safety must come first, so here are a few tips for kids who love to get wet.

Don't Leave Kids Alone in or Around Water

- Never leave your child unattended around water. We know it sounds strict, but there is no room for compromise on this one. Babies can drown in as little as one inch of water.
- Put the cell phone away, forget about all the other things you have to do and give young children 100 percent of your attention when they are near or around water.
- When using inflatable or portable pools, remember to empty them immediately after use. Store them upside down and out of children's reach. These types of pools can pose a drowning risk.

Close Lids and Doors

- Keep toilet lids closed and use toilet seat locks to prevent drowning.
- Keep doors to bathrooms and laundry rooms closed.

Learn CPR

- Parents have a million things to do, but learning CPR should be on the top of the list. It will give you tremendous peace of mind – and the more peace of mind you have as a parent, the better.

Remove Water From Tubs and Buckets After Use

- Once bath time is over, immediately drain the tub.
- Empty all tubs, buckets, containers and wading pools immediately after use. Store them upside down and out of children's reach.

Drowning is the leading cause of injury-related death among children between 1 and 4 years old. And it's the third leading cause of death among children.

Claims Corner

Please keep any paperwork such as enrollment forms, claims, sign in sheets, etc. for at least 4 yrs.

Summer is here! Please let us know when you submit your May or June claims when the last day of school is and if you know when school will start again in the Fall. Internet Claimers: please don't enter kindergarten information for a child starting kindergarten in the Fall or Minute Menu will assume the child is already in school. Send in kinder form and we will enter it so that you will not get any unnecessary deductions.

The children that will be starting in Kindergarten in Fall of 2016 will still count in the first number of your capacity until the day that they start Kindergarten. We will send out a blank Kindergarten form in July. You will also be able to find the 2016-17 Kindergarten form on our website.

If you send us enrollment forms by email or fax you do not need to mail original copies unless we request a better copy of the form.

The Enrollment Renewal Report will not show you a child's expiration date on their enrollment status. Look at Claim Information Form (reports>claim>claim information form).

*****July 4 is a legal holiday. If you are providing care, you must note this on your claim or CIF*****
