Do You Care For Kindergarten Children?

Do You Care For Kindergarten Children or have any children who are 5 years old?

If you do, you will need to complete a "Kindergarten schedule".

In which number of your license capacity do they count?

All Kindergartners are categorized as School-Age Children from the date they begin attending kindergarten and the kinder form has been submitted.

Children who are 5 years old but not in kindergarten count as a pre-school child.

School-Age Children are:

Children attending a kindergarten program a year before they enter the first grade.

And

Children 6 years of age and older.

....the child is counted in the "+2" or school age number of the provider's license capacity.

What documentation is needed for the Food Program?

Simply complete the information on the form on the other side of this sheet.

Also, please include a copy of the school calendar and/or track calendar for each school that children attend.

Please note, even if you have enrolled the kinder-age child on KidKare, this form is necessary to track Kinder hours and days.
